# Short, skills-based courses

# What this course offers

Te Ara Huringa ō Pupuwharau, in partnership with Vertical Horizonz, offer a range of short courses designed to give students the knowledge and skills to operate forklifts, elevated work platforms, work with dangerous goods, work at heights or in confined spaces. Other courses are available on request.

Aimed mostly at people who need to learn or refresh their skills in a one or two-day practical setting. Our trainers have experience in industry and can be flexible in delivery of courses to suit the needs of the individual.

While mostly being delivered from Te Ara Huringa ō Pupuwharau in Kawerau, these courses can be delivered on a customer site if required.

Minimum numbers do apply but we're happy to combine several organisations into one course if needed.

Courses are scheduled on a monthly basis so please get in touch if there is some training that you are interested in.
